In The Neighborhood.....

At the time of this writing the weather has been beautiful and everyone is out getting their last minute outdoor projects completed. As well as the farmers being able to get in the fields and getting their crops out.

Good news/bad news!!! The goods news I have is we should be receiving our new Set Top Boxes (STB) (which we desperately need to launch our new digital video programming tier) in the first part of December. The bad news is we were hoping to have these STB's two months ago. We are doing everything under our control to move this process along as quickly as possible. I'm told by our vendors we should start receiving this equipment in December. If this should happen, Three River Digital Cable will run a promotion shortly thereafter. We will definitely keep everyone informed, either via newspaper, radio, or cable TV of our progress.

If you aren't already, please consider the other services we offer (digital telephone & high speed Internet). I think there is a real chance for us to lower that monthly bill, plus provide good quality service with excellent customer service.

A reminder: If someone has an issue with one of our services....we want to know. We want to know in order that we can get it solved. If we don't know about an issue, there is no way we can help correct it. Therefore, please be patient and let us know....

Once again, if anyone has a question or concern, please feel free to contact me at the Lynch business office dialing 866-569-2666.

To All: Have a Happy Thanksgiving

And a

Very Merry Christmas!!!
